

# BOUNDARY BREAKS

## Riesling Dry #239

For our Riesling Dry #239, we seek to achieve maximum ripeness in the vineyard. This allows us to create a bright, crackling Dry Riesling that also has intense tropical fruit characteristics.

**WHAT DO THE NUMBERS, "239, 198, 110, 90", REFER TO?** When you choose to plant grapes, the plant nurseries that sell vines offer several choices within a particular variety. Each specific variation within a grape variety is referred to as a "clone," and it is given a number like #239 or #198. Within in a particular set of environmental conditions—or "terroir"—some clones are expected to do better than others. In the Finger Lakes, there is no consensus on what the "ideal" clone is for the terroir. When Boundary Breaks began planting its vineyards in 2009, it chose to plant five different Riesling clones to see how they each expressed themselves at the Boundary Breaks site.
