

BOUNDARY BREAKS

DID YOU KNOW?

Cooler Climate Reds are Just as Good!

- Cooler Climate Reds are lower in alcohol which makes them more food friendly!
- The Finger Lakes is a perfect climate to grow some of the world's best Cab Francs.
- Vineyards on the east side of Seneca Lake are in a microclimate called the "Banana Belt" due to slightly warmer temperatures.

The Harmonic 2021

WHAT MAKES THE HARMONIC SPECIAL

- We employ vineyard techniques that seek to achieve small berry size which yields sufficient color and structure, while exhibiting lots of fruit in the finished wine.
- These specific vineyard practices enable us to produce uncommonly ripe fruit in a cool climate, which yields structured, full-bodied wine.
- For our Bordeaux-style blends, we choose the combination of varietals based on the quality of the season, and which components will blend in the most harmonious manner.

2021 VINTAGE NOTES

The 2021 vintage was unusual for the consistent wet weather and cool temperatures. It placed high demands on our vineyard teams to keep the leaf area on the vines as productive as possible. This led us to achieve desirable ripening in an otherwise challenging year

TECHNICAL NOTES

Country: USA
Region: New York
AVA: Finger Lakes
Varietal: 70% Merlot; 30% Cabernet Sauvignon.
Harvest Date: Oct. 15- Nov. 1, 2021

Residual Sugar: 0%
Titrateable Acidity: 6.2 g/l
pH: 3.6
Bottling Date: Sept 1, 2022
Cases Produced: 900; **SRP:** \$24.95

SELLING POINTS: THE HARMONIC

For this vintage of The Harmonic, the majority of the blend is Merlot, with the remainder Cabernet Sauvignon. This wine is in the style of a left-bank Bordeaux wine. It will benefit from aging and should be drinkable for many, many years.

ABOUT US: Boundary Breaks focuses on cool-climate grape varieties--principally Riesling, Gewurztraminer and Cabernet Franc. We began planting vines in 2009 and released our first vintage in 2013. Our wines are sold throughout the US and abroad.

WHAT MAKES OUR WINES DISTINCTIVE: Our wines possess a powerful flavor profile. We achieve this in the challenging cool climate of the Finger Lakes by ensuring our fruit achieves a maximum level of ripeness in the vineyard. Our vineyards are located in a unique microclimate near the shoreline on the east side of Seneca Lake. The lake is more than 700 feet deep and keeps our site warmer during the coldest periods of winter. Our western-facing vineyard slopes also benefit from extended afternoon sun.
