

# BOUNDARY BREAKS

## DID YOU KNOW?

“Gewürz” means “spice” in German.

--Like Riesling, Gewürztraminer is a “cool climate grape variety”.

-- The fruit retains its acidity throughout the season until harvest.

--The result is a rich, aromatic, food-friendly wine.

## Gewürztraminer Med-Dry 2024

### WHAT MAKES OUR **GEWÜRZTRAMINER** SPECIAL

- We harvest the fruit for this wine when we believe it is at the optimal level of ripeness while still possessing sufficient acidity to yield a lively wine with the distinctive character of Gewürztraminer.
- We chose to produce a Gewürztraminer that is not-too-sweet and not-too-dry. It has slightly more residual sugar which makes it a good pairing with spicy foods.
- Gewürztraminer, like Riesling, is a food wine. This slightly medium-dry is a favorite for spicier meals, which require a wine that can hold its own against strong-flavored dishes.

### 2024 VINTAGE NOTES

The 2024 vintage was an ideal vintage in many ways. We received the right amount of rain early in the season which was followed by a dry warm summer and an extended warm autumn with just the right amount of rain. It allowed our fruit to achieve desirable physiological ripeness which translates into great flavors in the wine.

### TECHNICAL NOTES

**Country:** USA

**Titrateable Acidity:** 4.8 g/l

**pH:** 3.62

**Bottling Date:** March, 2025

**Cases Produced:** 350; **SRP:** \$23.95

### SELLING POINTS: **GEWÜRZTRAMINER**

*Many consumers who enjoy Gewürztraminer will appreciate the distinctive character of this wine. It has the floral qualities common to Gewürztraminer, but not so much to be overwhelming. These wines pair well with strongly-seasoned foods typical of Asian or Indian cuisines.*

**ABOUT US:** Boundary Breaks focuses on cool-climate grape varieties--principally Riesling, Gewürztraminer and Cabernet Franc. We began planting vines in 2009 and released our first vintage in 2013. Our wines are sold throughout the US and abroad.

**WHAT MAKES OUR WINES DISTINCTIVE:** Our wines possess a powerful flavor profile. We achieve this in the challenging cool climate of the Finger Lakes by ensuring our fruit achieves a maximum level of ripeness in the vineyard. Our vineyards are located in a unique microclimate near the shoreline on the east side of Seneca Lake. The lake is more than 700 feet deep and keeps our site warmer during the coldest periods of winter. Our western-facing vineyard slopes also benefit from extended afternoon sun.
